Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 25 January 2007.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

DETAILED ACTION

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 8 and 9 are rejected under 35 U.S.C. 103(a) as being unpatentable over Lavi in view of Huff. Lavi discloses in Figure 1 and in the specification a panel assembly comprising a panel which is retained within a frame. Lavi fails to disclose that the frame has first and second sections which attach together such that the panel is positioned between the sections. Huff discloses in Figure 3a and in the specification a panel assembly comprising a panel and a frame having a generally annular shape including first and second sections, where the frame includes tabs and mounting holes on each frame section which allow for a snap fit.

Allowable Subject Matter

Claims 1-3, 5-7 and 13-14 are allowed.

Claims 10-12 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Art Unit: 3711

The following is a statement of reasons for the indication of allowable subject matter: Claim 1 is allowable essentially for the reasons set forth by applicant. The amendments to the claim have overcome the prior art, as there is no suggestion of a first section of the frame having an inwardly extending ledge and a second section of the frame having first and second riges which interact with each other and with the panel in the manner recited. As a result, claim 1 and its dependents are allowed. Claim 10 and its dependents contain allowable subject matter because there is no suggestion of a means for retaining each tab in the notch as recited. Under 25 USC 112, p.6, means-plus-function limitations are examined in light of the specification, to determine whether the prior art discloses a structure that performs substantially the same function in substantially the same way. Huff does not disclose any such structure, nor does any other prior art. As a result, claim 10 and its dependents contain allowable subject matter.

Response to Arguments

Applicant's arguments filed January 25, 2007 have been fully considered but they are not persuasive. Huff discloses in Figure 3a at least two tabs and associated notches; one at the top and one at the bottom. Figure 3b also discloses at least two tabs 54a on one section, and corresponding notches 54b to allow attachment of the frame sections around a panel. To the extent that Huff discloses tabs and notches which extend around the perimeter of each frame section, which is unclear, they are still

considered to be four tabs and notches, which are adjacent to each other. As a result, claims 8 and 9 are suggested by the prior art.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
